

## Map of Landings on all Suwannee River Basin Rivers in Georgia

This map shows most of the landings on the largest rivers in the Suwannee River Basin in Georgia, with their sub-basins color-coded, from east to west: Suwannee, Alapaha, Withlacoochee, and Little. Not all landings can be depicted at this scale; see the maps for the individual rivers, swamps, and lakes.

The rest of the attachments each address each of the required criteria for changing a use classification:

1. Name and length of the waterbody.
2. Location of the reach, shown on a map.
3. Any 305(b)/303(d) impairment(s) &/or TMDL(s).
4. Current users of the waterbody, including but not limited to
  - o businesses or industries,
  - o parks within the waterbody and watershed,
  - o and any "blue trails" on the water for water-craft recreation activities.
5. Letters of support from:
  - o dischargers, domestic &/or industrial, to the reach.
  - o municipalities, county Board of Commissioners, other affected governmental bodies, and other stakeholders who live in the watershed.
6. Investments, both completed and pending, for improved use of the waterbody such as boat ramps, parks, trails, or drinking water systems. Include the amount of the investment, as well as who funded the project(s) and for what purpose. **d**
