

RECOMMENDED ACTION: Staff recommends approval of Option #1.

ADMINISTRATIVE COMMENTS: Recovery costs are based upon actual construction costs of the Project and upon the capacity of each lift station, and these recovery costs would come from the properties who connect to this portion of the sewer system gradually over time.

ADMINISTRATION RECOMMENDATION: I recommend that Council approve the cost recovery fee for the Project in the amount of \$5.49/GPD for the Goodyear Lift Station service area and of \$12.79/GPD for the Knights Academy Road Lift Station service area.

Al Crace, Interim City Manager
