**ENVIRONMENTAL CERTIFICATION FOR
STATE FUNDED PROJECT**

Financial Management Number: 405270-1-32-01, 405270-3-32-01, 405270-4-32-01, 442764-2-52-01, 442764-3-52-01
ETDM Number: N/A
Project Name: SUNCOAST PARKWAY 2 - US 98 TO HERNANDO/CITRUS COUNTY LINE
Project Description:

The original Suncoast Parkway - Project 2 SEIR was completed in 1998. The original project description was a proposed multi-lane, divided limited access toll facility to be located primarily within Citrus County. Suncoast Parkway - Project 2 would begin approximately 4 miles south of the Hernando/Citrus County line and extend to US 19, north of the Crystal River area and south of the Citrus/Levy County line. The proposed typical section for the original 1998 SEIR was a four-lane rural roadway separated by a 64-foot grassed median. The design speed was proposed at 70 MPH and had a 400-foot-wide right-of-way typical section.

Following the approval of the SEIR in 1998, the project was broken down into four design segments, identified as Phase 1, Phase 2, Phase 3A, and Phase 3B.

This re-evaluation is being conducted to evaluate design changes since the original 1998 PD&E SEIR for Suncoast Parkway Phase 3A (extend Suncoast Parkway from CR 486 to CR 495), FPID 442764-2. The project was discussed in detail in the previous Re-evaluations for FPID 442764-2 approved on October 18, 2023, August 2, 2024, and June 12, 2025. The reader should refer to those documents for a detailed description of the project re-evaluation.

- This project is a Non-Major State Action. It was verified on ____ and the action remains valid.

- This project is a State Environmental Impact Report (SEIR). The SEIR was approved on 02/06/1998.

A re-evaluation in accordance with the FDOT Project Development and Environment Manual Part 1, Chapter 10 was approved on 05/06/2026.
