

- Kanapaha Botanical Gardens
 - MSWRF CRU Project
 - The applicant has agreed to purchase additional lift associated with the District's Black Creek Water Resource Development Project to address its share of impact to the Keystone Heights MFLs (Lakes Brooklyn and Geneva).
 - GRU must continue to demonstrate that its share of all existing and future MFLs Prevention and Recovery Strategies are offset.
 - The proposed use has been determined not to potentially impact any OFS. Thus, Rules 62-41.400 – 62-41.402, F.A.C., and section 2.3(j), A.H., have been met. With the projects described above, the proposed use will not cause harm under section 2.3(h), A.H., and will meet rule 62-42.300, F.A.C., provided permit conditions are met.

Water Reserved from Use:

- The only applicable water reservation is in rule 40C-2.302, F.A.C., which ensures that an average flow of 35 cubic feet per second (cfs) from Camps Canal and Prairie Creek into Paynes Prairie. Since this reservation will not be impacted by the proposed withdrawal, the proposed use meets rule 40C-2.302, F.A.C., and section 2.3(i), A.H.

Water Quality/Saline Water Intrusion:

- The proposed withdrawals will not cause harmful water quality impacts to the UFA from the withdrawal of water.
- This project is not located in an area of known saline water quality concerns.
- Reasonable assurance has been provided that the proposed use will not cause or contribute to harmful water quality to the aquifer, saline water intrusion, or harmful upconing under sections 2.3(g)1, 2.3(g)3, or 3.4, A.H.

INTERFERENCE WITH EXISTING LEGAL USES:

- There are no current or historical reports of interference with existing legal uses.
- Groundwater modeling indicates drawdown resulting from the proposed groundwater withdrawals will not reduce withdrawal capacity by $\geq 10\%$ or cause economic, health, or other hardship to existing legal users.
- The proposed use will not interfere with existing legal uses pursuant to section 3.6, A.H., provided permit conditions are met.
